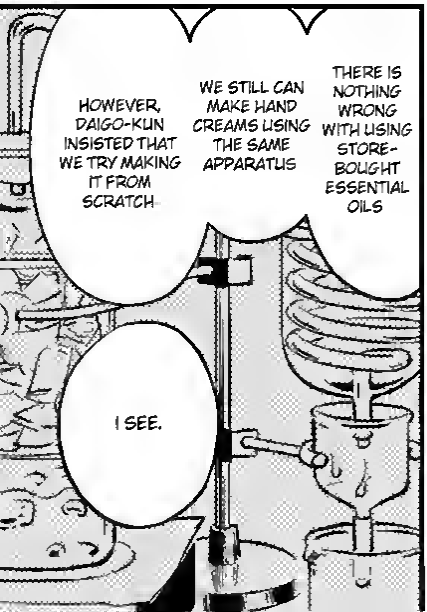
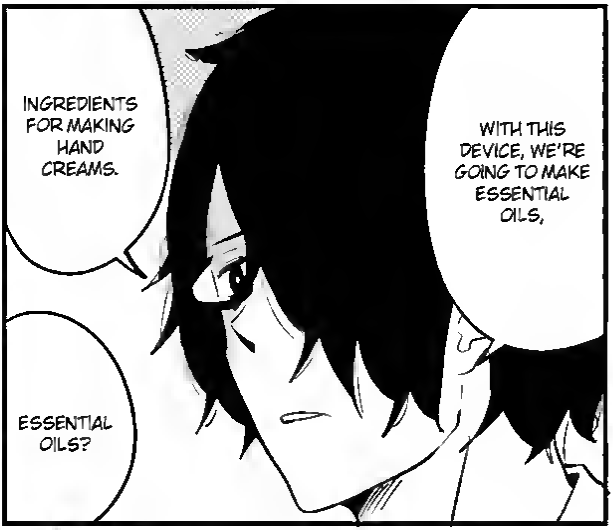
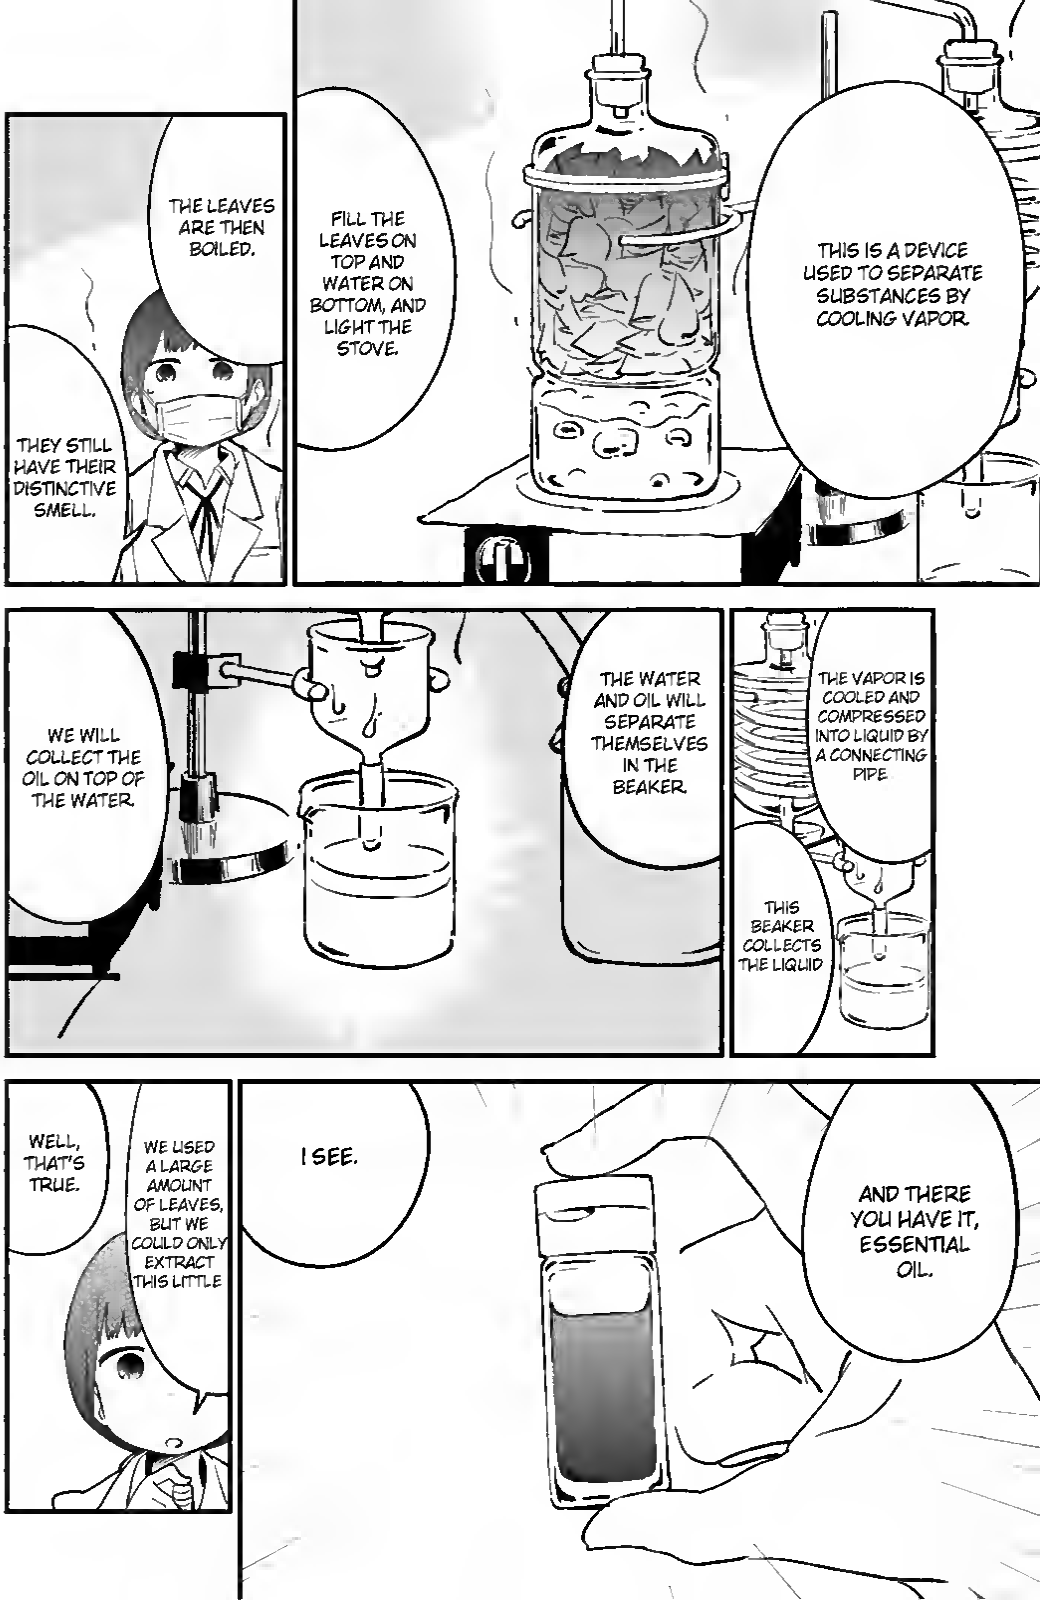
UHH, MR. POLYPHENOL...
ARE WE REALLY USING THIS DEVICE TO MAKE HAND CREAMS?
WE'RE DEFINITELY NOT GOING TO MAKE ILLEGAL DRUGS, RIGHT?
WELL, IF YOU WANT, WE COULD.
GOSH NO.



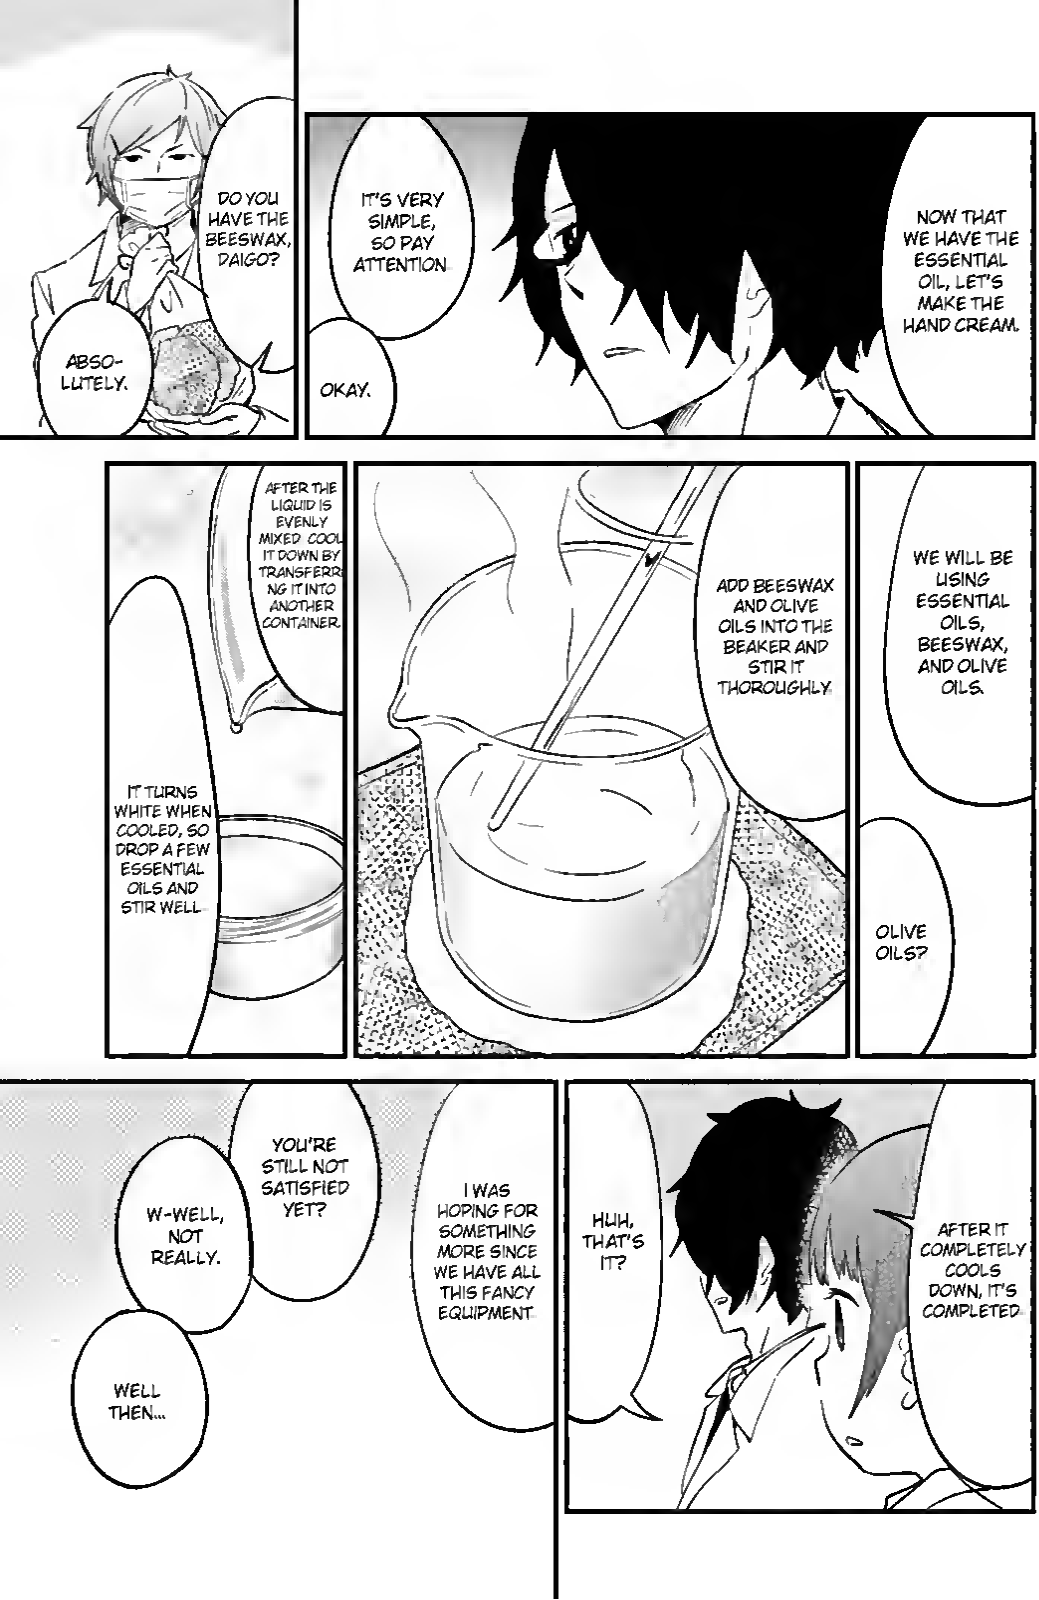
I SEE.
HOWEVER, DAIGO-KUN INSISTED THAT WE TRY MAKING IT FROM SCRATCH
WE STILL CAN MAKE HAND CREAMS USING THE SAME APPARATUS
THERE IS NOTHING WRONG WITH USING STORE-BOUGHT ESSENTIAL OILS



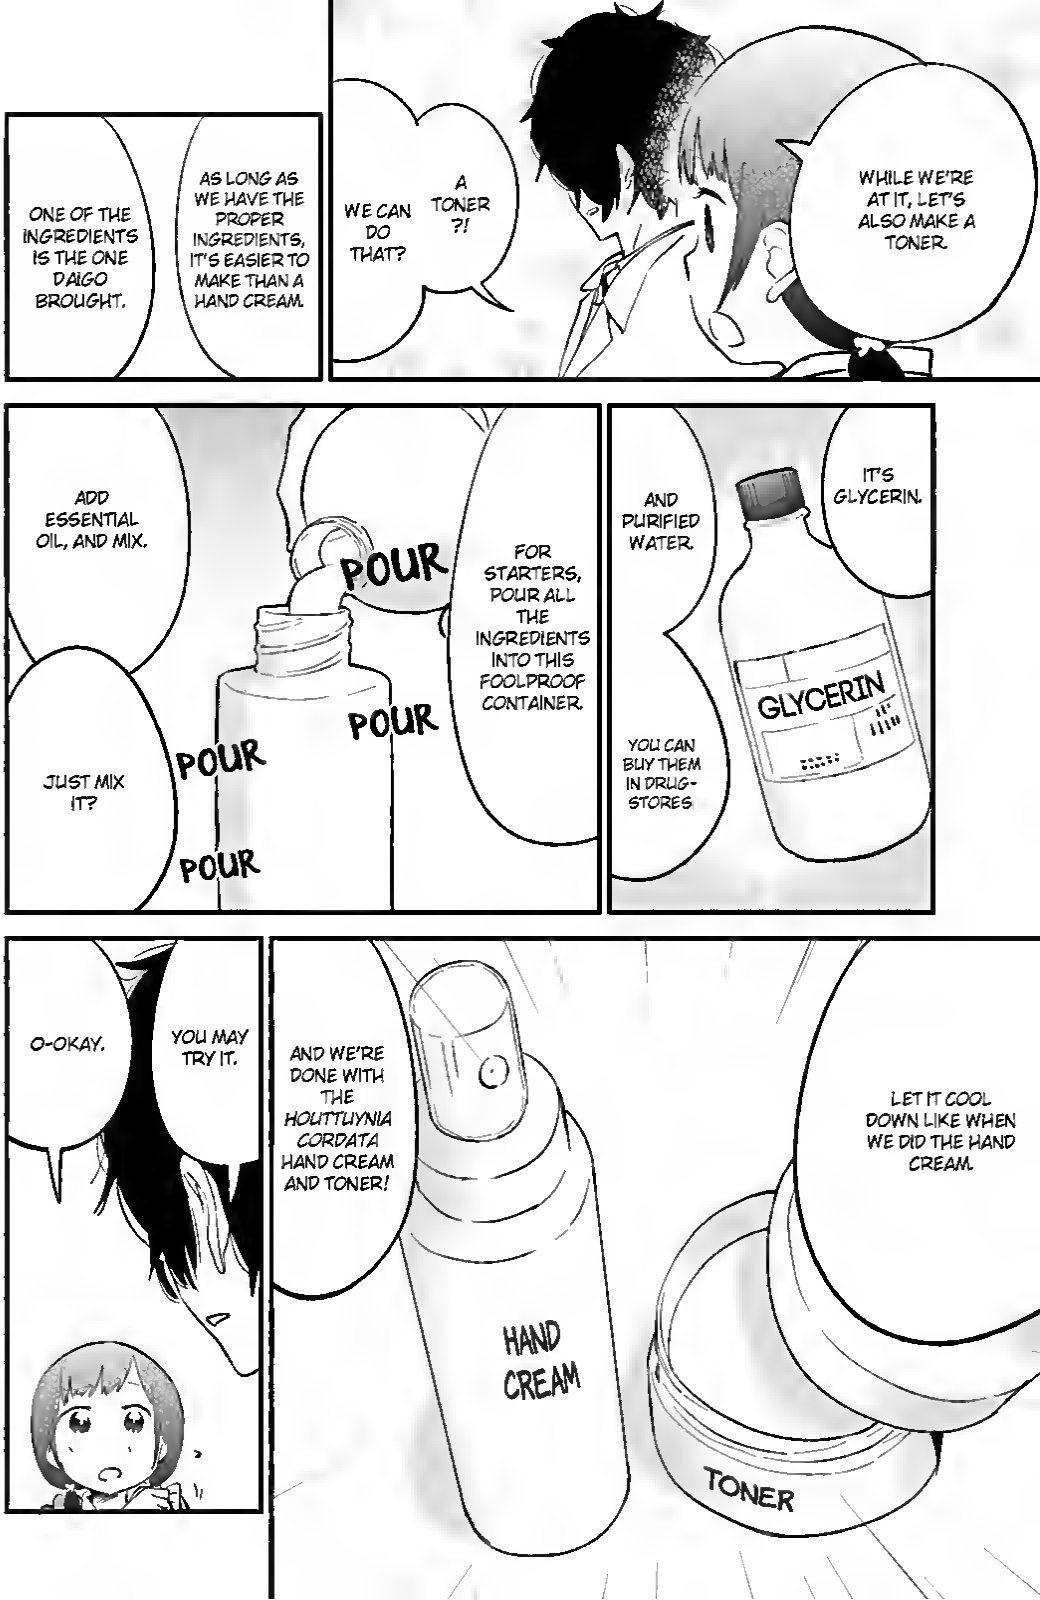
ESSENTIAL OILS?
INGREDIENTS FOR MAKING HAND CREAMS.
WITH THIS DEVICE, WE'RE GOING TO MAKE ESSENTIAL OILS,



THIS IS A DEVICE USED TO SEPARATE SUBSTANCES BY COOLING VAPOR.
FILL THE LEAVES ON TOP AND WATER ON BOTTOM, AND LIGHT THE STOVE.
THE LEAVES ARE THEN BOILED.
THEY STILL HAVE THEIR DISTINCTIVE SMELL.
THE VAPOR IS COOLED AND COMPRESSED INTO LIQUID BY A CONNECTING PIPE
THIS BEAKER COLLECTS THE LIQUID
THE WATER AND OIL WILL SEPARATE THEMSELVES IN THE BEAKER.
WE WILL COLLECT THE OIL ON TOP OF THE WATER.
AND THERE YOU HAVE IT, ESSENTIAL OIL.
I SEE.
WE USED A LARGE AMOUNT OF LEAVES, BUT WE COULD ONLY EXTRACT THIS LITTLE
WELL, THAT'S TRUE.



DO YOU HAVE THE BEESWAX, DAIGO?
ABSO-LUTELY.
IT'S VERY SIMPLE, SO PAY ATTENTION.
OKAY.
NOW THAT WE HAVE THE ESSENTIAL OIL, LET'S MAKE THE HAND CREAM.
WE WILL BE USING ESSENTIAL OILS, BEESWAX, AND OLIVE OILS.
OLIVE OILS?
ADD BEESWAX AND OLIVE OILS INTO THE BEAKER AND STIR IT THOROUGHLY.
AFTER THE LIQUID IS EVENLY MIXED COOL IT DOWN BY TRANSFERRING IT INTO ANOTHER CONTAINER.
IT TURNS WHITE WHEN COOLED, SO DROP A FEW ESSENTIAL OILS AND STIR WELL.
HUH, THAT'S IT?
AFTER IT COMPLETELY COOLS DOWN, IT'S COMPLETED.
I WAS HOPING FOR SOMETHING MORE SINCE WE HAVE ALL THIS FANCY EQUIPMENT.
YOU'RE STILL NOT SATISFIED YET?
W-WELL, NOT REALLY.
WELL THEN...



WHILE WE'RE AT IT, LET'S ALSO MAKE A TONER.
A TONER ?!
WE CAN DO THAT?
AS LONG AS WE HAVE THE PROPER INGREDIENTS, IT'S EASIER TO MAKE THAN A HAND CREAM.
ONE OF THE INGREDIENTS IS THE ONE DAIGO BROUGHT.
IT'S GLYCERIN.
AND PURIFIED WATER.
GLYCERIN
YOU CAN BUY THEM IN DRUG-STORES
FOR STARTERS, POUR ALL THE INGREDIENTS INTO THIS FOOLPROOF CONTAINER.
POUR
POUR
POUR
POUR
ADD ESSENTIAL OIL, AND MIX.
JUST MIX IT?
LET IT COOL DOWN LIKE WHEN WE DID THE HAND CREAM.
AND WE'RE DONE WITH THE HOUTTUYNIA CORDATA HAND CREAM AND TONER!
HAND CREAM
TONER
O-OKAY.
YOU MAY TRY IT.

!
PASS
I WANT TO USE IT AS AN INSECT REPELLENT.
CAN I HAVE THE WATER UNDER-NEATH THE OILS?
SURE, YOU CAN.
OF COURSE, I'VE ADJUSTED THE RATIO FOR THE ESSENTIAL OILS.
HOWEVER, I DIDN'T ADD ANY PRESER-VATIVES, SO USE IT UP QUICKLY.
ALSO, IT'S REALLY MOISTURIZING!
THE SMELL OF OLIVES MASKS THE ODOR FROM HOUTTUYNIA CORDATA.
YOU EVEN HAVE A LOT OF BEESWAX.
ANYHOW, SENPAI...
OF COURSE
YES, IT'S EASY AND USES THE SAME METHOD.
IT'S MADE WITH THE SAME APPARATUS AND CONTAINERS, TOO.
Toner.
I'VE NEVER THOUGHT YOU COULD MAKE A DIY TONER FROM THIS.

HOUTTUYNIA CORDATA...
...WORKS REALLY WELL WITH INSECT BITES.
SENPAI...
YOU'VE DEFINITELY MADE GREAT EFFORT TO GET BEESWAX!
